

Challenge Hike

2008

This year's competition will be as in previous years and will be held on 27th-29th June in the Castle Howard area of North Yorkshire. The base will be one we have used in a previous year's Challenge Hike. Further details will be sent to those teams entering.

For those teams who have not entered before, it is normally for teams to navigate from one checkpoint to another and completing challenges at most checkpoints. Competitors must have some experience of walking in the countryside and navigating between grid references on a map.

Each company must provide at least two Officers, who will assist in the safe running of the event. If staff are not available the teams will not be allowed to enter. There will be a small charge of £20.00 per team, with money being paid on entry. Teams must provide their own food, including milk. Water will be provided at the campsite and at checkpoints as the boys do the walking.

We shall meet at a named point as in previous years, and Officers will be allowed to get the campsite set up for the boys as they arrive back. At the meeting point route cards are to be handed in for the Saturday's walk and risk assessments and consent forms will also be collected.

We would draw your attention to the "Fun Team" category. This gives companies who have not entered before, to have a go by entering a joint team or by combining with another company. It also enables all Girl teams, from other youth organisations. Even if you can't raise a full team but have Boys or Girls who wish to take part then please let us know and we will try to put you in touch with companies in a similar situation. If your team has girls in it you must have a minimum of 2 girls attending, otherwise your girl will not be allowed to enter, which may mean the whole team misses out

If you wish to enter a team or teams in this event, please complete the attached sheet and return it to the convenor before 9.00pm on 24th May. Could you please indicate the number of young people who will be in your team/teams, how many staff, and how many tents you will be using, as we need to know numbers for those entering the event. A request is made to reduce the number of tents on the campsite due to cost and rather than have 2 x 2-man tents, if you could have 1 x 4-man tent it would be helpful. Please phone if you have any questions.
